

MN581-Discussion-Board
Unit4-Topic: Cardiovascular Disorders Cases

Topic Description:

This week's Discussion will focus on sharing experiences that you have encountered so far in your pediatric clinical rotation, specifically with children who present with Cardiovascular Disorders or conditions

Case Given For This Discussion Board:

Patient Age: (You decide)
Gender: Male
Chief complaint: Mitral valve prolapse

Specific Requirement For This Discussion Board:

Your discussion board should be based on case presented as above titled as "Case Given For This Discussion Board"
Note: DB must be based on line numbers: 10-15

Additional Discussion

Minimum: 250+- words (ONE Page)

Content must be substantive, qualitative and answer the discussion board questions. Do not add sentences/paragraph which has no relevancy to your discussion board questions as listed above. Do not re-ask the questions and reference list doesn't count for word count.

Must meet all rubrics and must meet APA requirements!

A cover page includes Name, title, date, name of the professor. This applies to all assignments submitted, must meet APA requirements.

Initial posts for each DB must also include a minimum of three (3) peer-reviewed citations.

Are supported by evidence-based data.

Must meet following rubrics:

You must answer all rubrics adequately, in absence of that you will not get the required grade and you will be required to withdraw from this course. This applies to any of the assignments/discussion board questions.

	Inappropriate 1	Below Average 2	Average 3	Above Average 4	Score	Weight	Final Score
Initial post timeliness	Provides an initial post past deadline	N/A	N/A	Provides an initial post on time .		15%	0.00
Additional comment requirement	Does not post responses to others.					10%	0.00

Engagement	N/A	Participates, but does not post anything that encourages others to respond to the posting.	Attempts to motivate the group discussion.	Frequently attempts to motivate the group discussion.		5%	0.00
Content Quality Initial Response	Submission does not relate to the topic.	Answers some question/topics with some clearly stated opinions. Supports post using text only.	Answers all questions with opinions and ideas that are stated clearly. Supports post using text and at least two peer-reviewed sources.	Answers all questions with opinions/ideas creatively and clearly. Supports post using several outside, peer-reviewed sources.		35%	0.00
APA Format	Major errors or no APA format used.	Minor errors with APA format.	Rare errors with APA format.	No errors with APA format.		10%	0.00
Spelling/ Grammar/ Formatting/ Mechanics	Significant errors in spelling and/or grammar. Major flaws in writing mechanics and formatting.	Poor spelling and grammar are apparent.	Uses Standard American English with rare errors and misspellings.	Consistently uses Standard American English with no misspellings. Appropriate mechanics and formatting.		10%	0.00
Length	Submission does not meet length requirements.	N/A	N/A	The initial post is at least 250+- words. This does not include repeating the DB question or the citations and references.		15%	0.00
						100%	0.00

All assignments will be submitted to Turnitin.

40 This is graduate school. I expect graduate-level work and professionalism, as we are all professional nurses. The
 41 **minimalist** approach will not be tolerated and I will not accept a sub-par assignment. **You will receive a zero without**
 42 **an option to resubmit.**

43 Do not add sentences/paragraph which has no relevancy to your case studies – be specific – need to be qualitative –
 44 these papers are very specific so you need to explain specific guidelines
 45 (Does not re-ask the questions and reference list doesn't count for page/word count

46 Do not do OVER-QUOTING)

47

DOT (.com sites are not accepted in this course.

48 Up-to-date, e-Medicine, Medscape, ePocrates, Web-MD, hospital-based publications (Mayo, John's Hopkins, etc.), the
 49 encyclopedia and the dictionary are not to be used as references. I add to this section every term as someone always
 50 surprises me with something!

51 APA 6th edition is the expectation and **I do check references.** Do not plagiarize. I also use a web-based plagiarism tool
 52 if I suspect work that is not original. If I have a high suspicion, I will use Turn It In account, which is then part of the
 53 national plagiarism database of thousands of documents. For this course, I expect a similarity level of **0%-10% or less.**

54 **You may be asked to submit your research journal/documents which you have used for reference.**

55 A graduate student should be able to write cohesive sentences using Standard English. Grammar, punctuation and
 56 APA rules should be followed. No dangling participles or split infinitives, ladies and gentlemen! Sloppy work will
 57 not be tolerated and will be returned with a grade of 0.

58 Be sure to spell-check and proofread your work before turning in the final product. Just because the rubric doesn't
 59 require me to assess a score, I will use my professional judgment.

60 **Note: DB must be based on line numbers: 10-15**
